

To whom it may concern

Through recognition of S7's need for an effective and innovative Frequent Flyer Program, many aspects had to be considered. Our focus had to be not only on future market forecasts, expectations and results that should be met, but also on solution requirements that should be covered by system.

Thanks to fruitful co-operation with Comarch professionals, we managed to launch S7 Priority in December 2008.

The system enables us to provide our frequent passengers with numerous benefits whilst making standard flights within the S7 route network and engage partners in the program – allowing travelers to earn additional miles by purchasing their products and services.
