REFERENCE LETTER

TRÓJKA - main supplier of high quality metal and construction materials.

The company was established in 1990 as nails manufacturer at first. Over the years, the company was being modernized and was constantly broadening its product assortment.

Our customers are Hardware Stores, Wholesalers, Building Depots, Retail Outlets, Manufacturers, Contractors. Many years of experience, perfect quality goods and low prices - are constantly developing TRÓJKA brand in Poland and worldwide.

We would like to draw particular attention to a mobile application Comarch ERP Mobile in cooperation with Comarch ERP OPT!MA.

Our Sales Representative are above all responsible for adding new sales orders. To do their job, they use Comarch ERP Mobile application in their daily work. Owing to that, during a meeting with a Client, our employee has always access to the full list of the offered goods along with applicable prices and the option of checking their available stock levels. An unquestionable improvement during issuance of orders is presentation of order's weight. A tradesman right away sees how much the entire order weighs and whether a customer fits in the logistics minimum value which is required to process a given order.

Deployment of the systems of COMARCH company, that is, Comarch ERP OPT!MA, Comarch ERP Mobile Sales, BI Analyses simplify the procedure as regards customer contacts, receipt of orders and their rapid completion.

We are currently one of the major manufacturers, importers, exporters and distributors of materials such as:

NAILS • WIRES • ELECTRODES • REINFORCEMENT WIRES • FENCING PANELS AND NETTING • GATE DOORS • WALK-THROUGH GATES • PLASTIC FILMS • ROOF MEMBRANES • WOOD CONNECTORS • RODS, NUTS, WASHERS • SCREWS • WALL PLUGS • WOOD SCREWS • CONSTRUCTION SCREWS • METAL SCREWS • RIVETS • POLYSTYRENE PEGS • PLASTER NETTING and many more

We are cordially inviting all companies and individuals interested in cooperation with TRÓJKA company.

We also encourage to try the software of COMARCH company
